

Fiber Internet Access (FIA)

Accelerate your organization with a reliable, powerful and dedicated Internet access service

Today's organizations depend on high-performing Internet solutions to keep critical applications up and running and business operating. Without a dependable Internet connection, network resources are constrained, impacting both employees and customers.

Spectrum Enterprise Fiber Internet Access (FIA) is a dedicated service that offers reliable nationwide connectivity with performance and support you can always count on. Delivering scalable Internet access, we guarantee 99.99% service availability all the way to the equipment at your location. Connect wherever you are with a service available nationwide that accelerates the pace of your organization.

Product highlights

- **Superior performance** – Improves business productivity through a high-performing Internet service ensuring reliable connectivity
- **Scalability and reach** – Provides an easily scalable platform with national reach and dense metro coverage to support current and future bandwidth needs
- **Business continuity** – Optional diversity solutions to support Internet uptime in the event of a wireline disruption
- **End-to-end support** – Reduces complexity via a single, nationwide partner providing one resource team, one contact point for services and support including the in-building connection
- **Cost effective** – FIA delivers value with competitive, straightforward pricing

Key features

- Dedicated connection that is not shared with others, delivered over a reliable advanced fiber network
- Industry-leading service-level agreement (SLA) metrics guarantee availability, low latency, jitter and packet loss all the way into the client suite
- Symmetrical access that scales from 25 Mbps to 10 Gbps from a single provider
- 24/7/365 US-based support and local technicians
- Automatic wireless backup option provides failover and failback functionality with battery backup and unlimited data
- Multiple physical diversity and redundancy options to help protect your network

Optional managed network services

Enhance FIA with a suite of complementary managed services products designed to protect, simplify and improve the performance of your network.

- **Managed Security Service** – Reduce the risk of external Internet threats with a comprehensive security service
- **DDoS Protection** – Protect your network from malicious volumetric attacks with world-class threat identification and mitigation
- **Managed WiFi** – Connect to the Internet seamlessly, anywhere with consistent and easily accessible WiFi
- **Managed Router Service** – Optimize your network routing with an all-inclusive expertly managed service
- **Wireless Internet Backup** – Protect Internet uptime against network or power disruptions

FIA technical specifications

Network

- IP over IEEE 802.3-based, full-duplex, noncircuit switched services
- Provisioned via our advanced fiber-rich network from the client premises to one of many hub locations throughout the Spectrum Enterprise network footprint
- Multiple levels of network fault tolerance provide a highly reliable and secure Internet access service
- Fiber access circuit is unaffected by electromagnetic interference

Routing

- Static or border gateway protocol (BGP) traffic routing options

Internet Access Demarcation

- Fiber connections to the Spectrum Enterprise network are monitored 24/7/365 via a dedicated network interface device (NID)
- Traffic is routed over the Spectrum Enterprise IP network until it is required to travel to the public network in order to reach its destination
- Demarc extension included for most buildings in footprint

Static IP addresses

- Initial IP block is included
- Additional IP address space available upon request
- Support for dual stacking of IPv4 and IPv6
